

Appendix B

An Overview of the Conference Reader

For the round table, CIRCLE prepared a 140-page Conference Reader which included the agenda, biographies of participants, brief presentation outlines, an annotated bibliography on the theme, and most importantly, the results of a survey of CIRCLE members representing 14 different European countries on the prevailing definitions, policies, and other activities related to social cohesion in each country. The contents of the document are outlined below. The full Conference Reader is available free of charge from the CIRCLE Web site: <http://www.boekman.nl/circle>.
