EDITORIAL NOTES

This is the second issue to be edited by this Editor. Hopefully we have corrected some of the problems of the first issue. A new word processor has allowed us to eliminate the typographical errors which the previous typist missed in the previous issues. Other problems may remain which are also being worked on so that the journal may grow. I wish to thank all of the persons who have worked as referees during Volume 8. Only the Fouts article has been through the process while I have been editor. The other articles were in the works when I took over as Editor.
Dr. Akira Ichikawa has been invited to lecture in Japan during this Fall term. Therefore he will take up his duties as Book Review Editor in January 1983.

Butterworths has appointed a new Managing Editor of the Academic Division. Dr. Chitra P. Reddin replaces David Hogg who has returned to London. Dr. Chitra studied for her Ph.D. at Dalhousie and has published two books of poetry. Outlines for books in Communication Studies may be sent to her or Earle Beattie who serves as consultant for that series.

Beginning with the next issue we will be publishing a series of articles by various scholars on Defining Canadian Communication Studies. We have had a good response from those persons who have been approached about the series. If you would like to contribute to the series please contact me as soon as possible.

Presently we have fifteen manuscripts in the review process. Please note the information for contributors above before sending your manuscript. We solicit your manuscripts and suggestions.
